The high capacity K-series cargo trolleys is an ideal solution to carry products from the back-warehouse to the store. It has 2 different size options. The small version K4S is suitable for a warehouse/store with small aisles or to be loaded in an elevator. A K-series cargo trolley is also used as a shopping trolley in large square meter wholesale stores, offering a silent comfort with its custom made rubber wheels. Configured with 2 swivel front wheels and 2 fixed rear wheels. Occupies minimum space in the store, thanks to its nesting design.

K5 cargo trolley is very similar to K4 series in structure. What differentiate K5 from K4 is the 4 swivel wheels (instead of 2) and the 5th wheel at the center of the trolley that gives K5 stability and comfort. K5 is the ideal solution if more maneuverability is needed when transporting goods from warehouse to the store. Ideal solution to be a "customer trolley" in DIY or wholesale stores.

The best way to quickly transport boxed goods between the back-storage and the store is to use the M series cargo trolleys. With 2 alternative sizes, the M series cargo trolleys have 2 fixed and 2 swivel casters and a reversible handle which offers great ergonomics by giving the user 2 control options: pull or push. This removable handle also helps M series occupy minimum space in the warehouse when not in use.
